

Electro- pneumatic training set (PLC & Pneumatic)

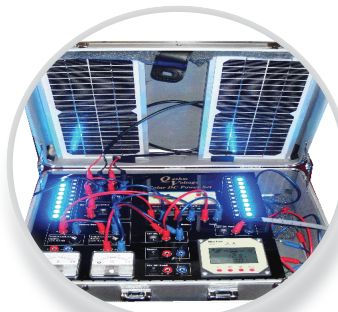

Instruments training set

Automation training set Full option (PLC, Driver, HMI)

- Convertible to an industrial automation system and precise instruments in real industrial conditions

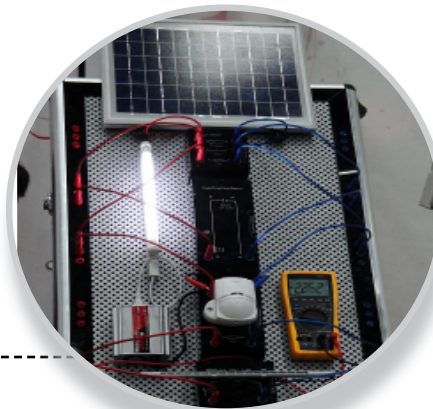

GREEN ENERGY

Solar training set DC supplier

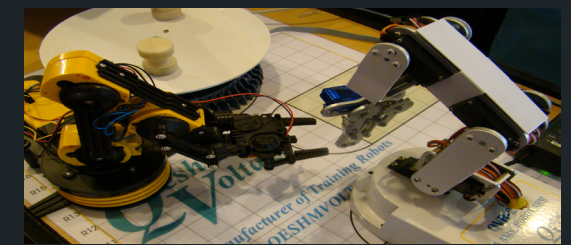

Solar training set sun tracking

Portable solar training set for AC & DC supply

Qeshm Voltage

Qeshmvoltage founder localization in training and educational technology, industrial automation, PLC, instrument, robotic, mechatronic, pneumatic and solar energy in iran

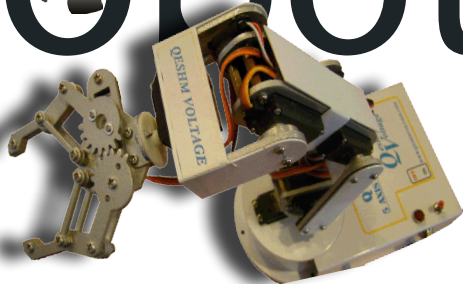

To learn knowledge of electronic, automation, precise instruments, robotics, mechatronics, pneumatic and solar energy in different levels such as universities, vocation schools, and other training research centers.

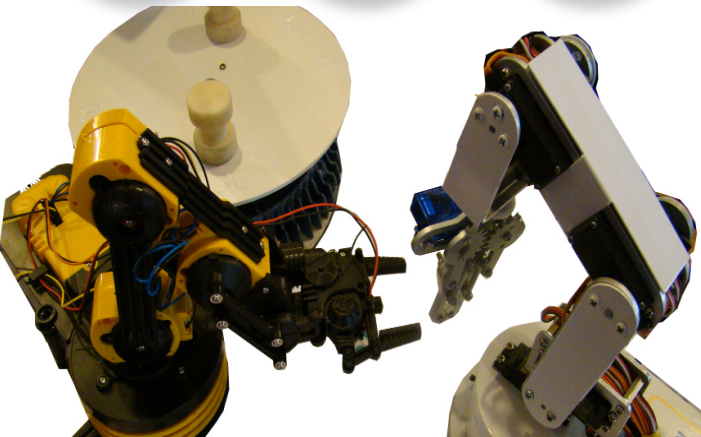

Qeshmvoltage , equipment producer for global work skills competitions.

Robot

Industrial didactic robots to train in universities and technical schools

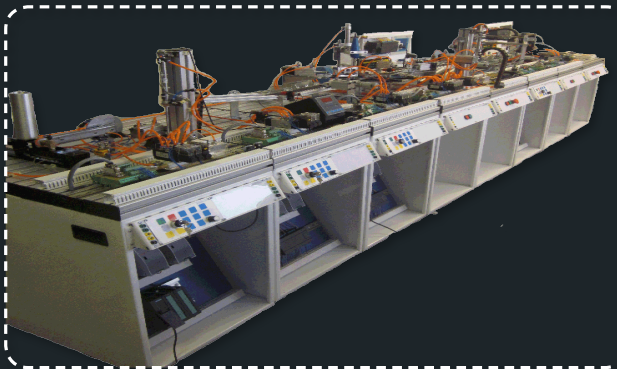

QVR Robot

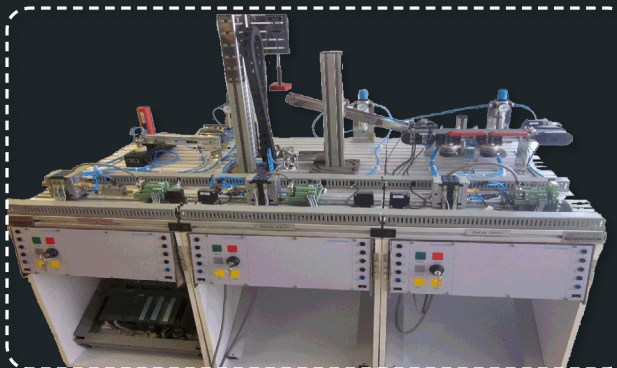

Is similar to palletizer robots which are broadly utilized in industry. This robot has 5 degrees of freedom that with high efficiency to pick and place for industrial robots. Its individual software is developed to control and program the robot. And it trains robot operating easily.

MECHATRONIC

Mechatronics training set applicable in technical universities and global competitions.

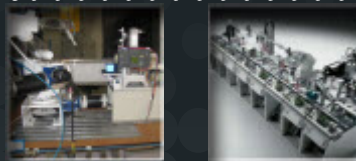

Mechatronics set with 8 stations

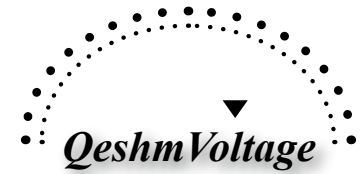

Mechatronics set with 3 stations

MECHATRONICS

• Real training of a factory automation •

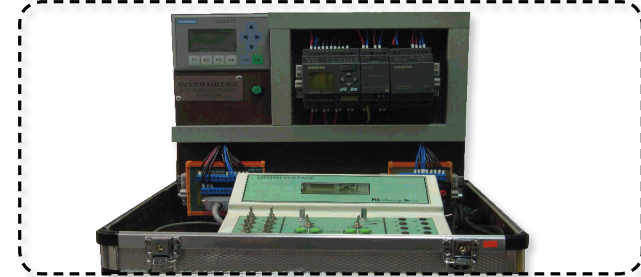

Industrial automation training sets

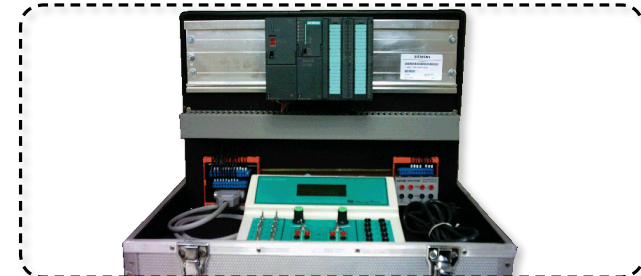

For improve automation knowledge in training, academic and technical centers.

Training set PLC S7-400

Training set mini PLC Logo + TD

Training set PLC S7-300
