

نوین ماهان هگمتانه  
Novin Mahan Hegmataneh

# Design, manufacture

and repair of industrial equipment  
CNC machines and 3D printers

3D printing

Reverse Engineering

Design and engineering calculations

Hydraulic and pneumatic systems

Plastic injection mold design

Automation

3D scan

- Design, manufacture and repairs of FDM, PDM DLP 3D printers
- 3D printer services for metal, polymer and resin parts and products
- Reverse engineering services, 3D scanning and parts modeling
- Automation and optimization of production lines
- Design, manufacture and repair of industrial machines and CNC machines
- Design services and engineering calculations
- Design and manufacture of plastic and diecast injection molds
- Production of all kinds of plastic injection parts
- Designing and manufacturing all kinds of mechanisms, jigs and fixtures
- Consulting and expertise in the field of idea development, patenting and innovation
