We Have three model for Ultra Low Freezer :

AULF 600 Liter & AULF 100 Liter & AMULF 45 Liter

BIOMEDICAL TESTING FREEZER

Aryasarmayesh AULF Series features state-of-the-art refrigeration, rugged construction and easy-to-use microprocessor controls and a range of functionality including:

- Microprocessor Controls: Centralized, eye level information center, including microprocessor control and monitoring system ensures all controls and displays are easy to reach and read
- Energy-efficient Double Door Option: Unique double door to store frequently used samples in the top chamber while long-term storage remains undisturbed in bottom
- 5 in. (127mm) foamed-in-place, polyurethane insulation: reduces power consumption, maintains temperature setpoint and combined with triple-point door gasket, provides longer holding time in the event of a door opening
- Rugged, heavy gauge, cold-rolled steel cabinets: with a powder coat paint finish for a uniform exterior that resists chipping and rust
- 1 in. (25mm) access ports: allow for the use of inexpedient probes or instrumentation
- Secure inner doors: Four inner doors for AULF 600 reduce cold air loss and improve temperature recovery after door closings
- Stainless steel interior
- Single-hand operation: Easy-to-use, padlock-compatible, ergonomic door handle with integrated key lock
- Optional CO₂ or LN₂ back-up: Optional choice of CO₂ or LN₂ safety back-up systems for additional sample protection in the event of a power or mechanical failure
- Optional chart recorder: Optional built-in chart recorder can be installed at eye level on AULF 600-86°C models
