

ميكرو وولتمتر Microvoltmeter

Application :

For measurement and registration of dc voltages in the V , mV and μ V range. With large front panel LED display. An analog out put carrying the amplified signal for connection to a measuring instrument or a recorder is provided. This instrument use in Hall effect and other experiments .

Specifications :

- Resolution in the most sensitive range : 100nv
- Range : 0-20 volt in 6 range
- Display : 4 digits
- Zero : push button for automatic zero
- Input : BNC
- Power : 220 VAC – 50 Hz

Dimensions : 28 cm * 24 Cm * 10 Cm

Warranty : One year

After sales service : Ten years
