

CERTIFICATE OF ANALYSIS

Product: Agarose 100g

Catalog number: MR7740C

Lot Number: Specified on the product label.

Quantity: 1

STORAGE CONDITION: Store at room temperature

Application: for use in Molecular Biology applications.

DESCRIPTION

Sinaclon Agarose is highly purified agarose with a low melting temperature certified by strict quality control test procedures.

QUALITY CONTROL:

The appropriate quality tests confirmed by absence of DNase and RNase activity.

Caution: Not intended for human or animal diagnostic or therapeutic uses.

NOTE 1: This is the signature indicates that the above material has met all quality specifications and has been reviewed by a quality department
