

PB2068 - 1", 2", 3", 5"

PMT Drive Socket with Preamplifier
and HV

- All in one
- Compact, easy operation
- For scintillation detectors employing 10-stage PMTs that fit standard 14-pin sockets
- Linear output available from anode or tenth dynode
- Internal, adjustable, high-voltage bias supply eliminates high voltage cables
- Built-in low-noise preamplifier
- Protection circuit for internal transistors
- Low power consumption for portable applications
- Convenient, single-cable connection for most applications
