

## Automatic Potentiometric Titrator

ITEM	SPECIFICATIONS
Toos Titrant -TN-556	<b>Titration method</b> Potentiometric titration (acid/base, redox, precipitation titrations) <b>Polarization titration (optional)</b>
	<b>Measuring range</b> <b>pH:</b> 0 to 14, <b>Resolution</b> 0.001 pH <b>mV:</b> -2000 to +2000mV, <b>Resolution</b> 0.1mV
	<b>Electrode inputs</b> <b>Indicator electrode:</b> 2 <b>Reference electrode:</b> 1
	<b>Titration steps</b> Up to three (3) steps
	<b>Number of endpoints</b> Up to two (2) endpoints Automatic detection by: -Inflection point -Set point -Meas.(pH measurement) -Disp.(dispensing)
	<b>Endpoint detection</b>
	<b>pH calibration</b> 2 or 3 points (ASTM/US standard/JIS tables)
	<b>Data storage capacity</b> Not Limeted Built-in battery for backup
	<b>Buret capacity</b> 5-10-20-mL, Potentiometric titration minimum drop size = 0.005 mL Karl Fischer titration minimum drop size = 0.01 mL
	<b>External Input/Output</b> USB Connection
	<b>Software</b> ToosNano ToosTitrant Software (WINDOWS Based)
	<b>Power requirement</b> AC100-240V, 50/60Hz, 100VA
	<b>Dimensions / Weight</b> 310(W) x 270(D) x 310(H) mm / Approx. 4kg
