

# AMI Wear Test

- Closed loop controlling of vertical force up to 10kgf via servo actuator
- Closed loop controlling of disk speed up to 300rpm via servo motor
- Adjusting position of pin position on disk
- Mounting various pins up to 14mm diameter
- Mounting various disks up to 220mm diameter
- Measuring of Friction force , Coefficient of friction , Temperature and Wear trend
- Saving of Experiment data in excel format
- Testing Standard: ASTM G99
