Portable Dry Block Calibrator T1511

Features:

- The overall range of 40 to 650 ° C
- Fast-wide Operating Range
- Isothermal Block 150×35mm
- Interchangeable block
- Portable

Model	T1511
Temperature Range	40 to 650 ° C
Temperature Stability	Over 30 minutes: ±0.13° C
Temperature Uniformity(Radial)	<0.14° C
Temperature Uniformity(Axial)	<0.95° C
Heating Time	20 Minutes
Cooling Time	60 Minutes
Calibration Volume	35mm Diameter×150mm Depth
Controller	PID
Power	230/115 VAC (±10%), 50/60 Hz
Weight	8kg
Exterior body color	Electrostatic powder coating (scratch-resistant and washable)

Additional Equipment:

- Carrying Case
- Alternate Block
- Cooling system
- On and off timer for the programming device
