SPMB T-vector cloning kit

Cat. NO.SP516

20 μ l (100 ng/ μ l)

Store at -20°C

Description

-The SPMB T-vector cloning kit is an advanced positive selection system for the highest efficiency cloning of PCR products generated with *Taq* DNA polymerase. Because of this to design letal *ccdB* gene, the kit offers efficiencies of up to 100 positive clones, eliminating the need for IPTG & X-gal for colony screening.

- a set of wide range of restriction

Recommended Protocol

Buffer ligase (10x)	1 μ l
T-vector	1 μ l (100 ng/ μ l)
PCR-production (Insert)	50-100 ng
T4 DNA Ligase	1 μ l (1U/ μ l)
ddH ₂ O	X
Total	10 μ l
