

Features

- Corona discharge ionization source with a novel design
- Analysis in negative and positive modes
- Negative detection without interferences of NOx
- Unique and specially developed proprietary software
- Novel designed injection port for accurate injection
- **Panel Touch Monitor**
- Very fast analysis (< 5 sec) with high sensitivity (~ pg)

Applications

- Chemical gases (NO_x, SO_x, O₂, CO, CO₂, and halogens)
- Explosives (TNT, DNT, PETN, HMX, RDX, NG, ...)
- Illicit drugs (morphine, codeine, heroin, methamphetamine, ...)
- Pesticides (insecticide, fungicide, acaricide, ...)
- Clinical drugs (antibiotic, antidepressant, antidiabetic, ...)
