

Nano colloids

Silver nano colloid (Ag-DW)

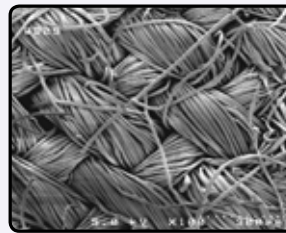

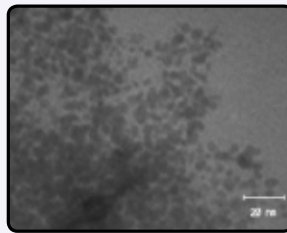

Specifications:

Purity (%)	Average particle size(nm)	Morphology	Color	Available dispersed concentration
99.9	10-20	Spherical	Black green	500-4000 ppm

Also available in Glycerin, Gelatin ,...

Applications:

- Conductive coatings
- Conductive inks
- Conductive pastes
- Medical Care
- EMI/RFI shielding
- Silver colloids
- Anti bacterial applications

Gold nano colloid (Au-DW)

Specifications:

Purity (%)	Average particle size(nm)	Morphology	Color	Available dispersed concentration
99.9	10-20	Nearly Spherical	Black red	500-4000 ppm

Also available in Glycerin, Gelatin,...

Applications:

- Cancer treatment
- Bacteria identification
- Enzyme identification
- Drug carriers
- Food Additives
- Cosmetics Additives
