*Surface Nano-Engineering  
Knowledge-Based Company*

## DIP COATING MACHINE DCM-10

- A Flexible Choice to Conduct Various Kinds Of Dip Coating
- Easy To Install Samples And Easy To Set Height
- Offers a wide range of Speeds
- Programmable Interface
- Robust and Resistant Body
- Low Noise and Vibrations

Jikan Company (Knowledge-Based), No. 407, Building No. 2, University of Tehran Science and Technology Park, North Kargar street, Tehran, Iran

# DCM-10

*Dip Coating Machine*

- **Jikan DCM-10** is a laboratory dip coater, used for coating the samples in an easy, fast, reliable and repeatable way. The device offers a wide range of speeds and stop times and could be programmed with desired cycles.

| Technical Data                       |  |
|--------------------------------------|--|
| Maximum Dipping/<br>Withdrawal Speed | 100 mm/min   |
| Minimum Dipping/<br>Withdrawal Speed | 0.1 mm/min   |
| Maximum Carrying Weight              | 300 gr   |
| Maximum Travel Distance              | 120 mm   |
| Built-in Software Features           | 99 Cycles<br>20 Saving Slots<br>Adjustable Dipping speed, Withdrawal speed, Up and Down Stop Times               |
| Power                                | AC 220V<br>60W   |
| Dimensions                           | <ul style="list-style-type: none"><li>• Width : 200mm</li><li>• Height : 280mm</li><li>• Depth : 250mm</li></ul> |
| Weight                               | 6 Kg   |
